EXPERIENCE

Truth Origins LLC London, UK — Software Developer

December 2021 - PRESENT

Collaborated with a small development team to build and maintain web applications for a health and wellness e-commerce company.

Accomplishments:

- Remote collaboration with a team of international developers and designers.
- Quickly gained knowledge of Liquid JS and Shopify development platforms to debug problems and support future projects.
- Currently working with the development team to deploy a new e-commerce website later this Spring.

Prime Digital Academy Minneapolis, MN — Software Engineer Student

NOVEMBER 2021 - PRESENT

Fully immersive, full stack software development program that focuses on real world client work in a collaborative and diverse environment.

Accomplishments:

- Solo Project:
 - Developed and deployed a full-stack application called, "Average Out" in a 2 week sprint.
 - The app was designed to track a user's cryptocurrency portfolio with a built-in function to calculate different exit strategies over a specified duration.
 - Tech stacks used for the project: React, Redux, Sagas, Node.js, Express, PostgreSQL, Material UI, Javascript, HTML, CSS.
- Participated in DEI projects, public speaking practice, professional skills development and Agile group projects.

Aloha Poke Co. Twin Cities, MN — District Manager

JANUARY 2018 - JANUARY 2022

Accomplishments:

- Hired, trained and retained a staff of 50+ employees while developing store level management.
- Built our catering business from the ground up, with focus on professional sports teams and fortune 500 companies in the Twin Cities market. Retaining a 95% retention rate for catering business through effective client relations.
- Project managed the new store openings from the start of design to being fully operational.

Tap House Restaurant Group Twin Cities, MN — Multiunit General Manager

AUGUST 2016 – JANUARY 2018

Accomplishments:

- Managed a staff of 130+ employees while hiring and developing store level management teams.
- Increased revenue by 10% with a focus on customer satisfaction and retention.
